NOTES REGARDING THE SETTING OF APPOINTMENTS

The Embassy advises that, within the framework of the appointment setting, the data required for the visa processing is already retrieved from the caller. This reduces the duration of the personal interview at the Embassy and at the same time facilitates the scheduling of more appointments, and therefore avoids an excessive waiting time for an appointment.

In order to keep the telephone fee low, callers are urgently advised to have at hand all required documents for the visa application, including the valid passport of the applicant, when setting the appointment.

Please note that the telephone numbers for setting appointments can only be reached from within the Philippines (telephone calls from Germany are not possible via these numbers).

Important notice for Schengen-Visa applicants: Interview appointments are scheduled in accordance with the sequence of the telephone calls received by the Call Center (i.e. first come, first served). If a particular appointment date is favored, the Call Center should be informed accordingly. The Call Center will then try to comply with the request within the scope of the available options. Although the processing time of the Schengen-Visa application generally does not exceed two weeks, the visa application should be submitted with sufficient lead time. Visa applications can, however, be submitted at the earliest three (3) months prior to the actual start of travel for which the visa is required.
